- Flush cut jaws provide clean cuts across full range of extra small to extra large cable ties eliminating painful edges on wire bundles and other components secured by cable ties
- Tapered pliers head differentiates 786ACF from VectorEdge diagonal cutters to aid user in maintaining precision edges and avoiding misuse on hard materials better suited for VectorEdge cutters (85ACF, 86ACF, 87ACF, 388ACF, 312CF)
- Relieved pliers head provides improved access for precise cuts in the workspace
- Cold-forged alloy steel ensures a strong, durable tool
- Differential heat treatment produces strength and toughness
- Cushioned plastisol handles are designed for comfort and leverage to reduce fatigue
- Protective cap keeps tip protected while in drawer or if the unit is dropped
